

TACTICAL AMMO WORKS LLC

Full-Lifecycle Defense Program Management | From Requirements to Closeout | SDVOSB

"People First. Customer-Driven. Mission Secured."

Wyatt Carpenter, PMP | Air Force Veteran | Huntsville, Alabama

SDVOSB

Service-Disabled Veteran-Owned
Small Business

CORE CAPABILITIES

Research & Development

Full-spectrum R&D; from basic research through applied defense systems development.

Prototype Development

Concept-to-hardware prototyping with engineering discipline and schedule accountability.

Systems Engineering

Requirements decomposition, architecture development, interface control, and integration.

Low Rate Initial Production (LRIP)

Production readiness reviews, LRIP planning, and manufacturing transition execution.

Engineering Solutions

Design, analysis, and technical problem-solving across complex defense programs.

Development Test & Qualification

DT&E; planning and execution through formal qualification and airworthiness certification.

Quality & Airworthiness Management

AS9100-aligned quality management and military airworthiness qualification programs.

Program & Contract Management

FAR/DFARS-compliant program execution, subcontract management, and risk mitigation.

WHY TACTICAL AMMO WORKS

- Cradle-to-grave solutions ownership. We own the outcome, not just the labor hours.
- 15+ years executing large-scale DoD programs spanning UAS, munitions, and airborne systems.
- PMP-certified program manager with hands-on development experience across the full acquisition lifecycle.
- SDVOSB — teaming partner of choice for primes seeking a compliant, capable small business.
- Based in Huntsville, AL — embedded in the Redstone Arsenal defense corridor.

COMPANY OVERVIEW

Tactical Ammo Works LLC builds defense systems from the ground up. We take programs from concept through research and development, prototype development, engineering, qualification, and into production — and we own the outcome at every stage. The deliverable is a fielded, qualified system, not a report or a recommendation.

Founded by an Air Force veteran and PMP-certified program manager with more than 15 years of large-scale DoD program experience, the company is built on a foundation of hands-on development work. That experience spans UAS development, prototype development, systems engineering, LRIP, flight test, airworthiness qualification, and AS9100 quality management.

KEY PERSONNEL EXPERIENCE

UAS Development Programs

Dynetics / Yulista — Engineering, integration, and PM on large-scale UAS development contracts.

Prototype Development & Systems Engineering

ERC — Early-stage prototyping, systems engineering, and technical documentation.

LRIP & Manufacturing Transition

S3 — Low Rate Initial Production planning, production readiness, and manufacturing support.

Program & Contract Management

Canvas Management Associates — FAR/DFARS-compliant PM and subcontract management on DoD contracts.
